

TA licence to use NELI

Teaching Assistants can only implement NELI under licence

Why is a licence system beneficial?

- Having a system of licences means that Elklan knows who is still involved and Elklan can email relevant information to keep licencees updated. TAs who no longer wish to be part of NELI can decline to renew and all contact will cease.
- The licence fee also pays for support from Elklan and continued improvements to the NELI area of the website.

What are the licence fees and how can a licence be renewed?

- A licence for the first year is provided as part of the initial training to use NELI.
- The NELI licence must be renewed every year.
- An email will be sent two weeks before the licence renewal date.
- It is possible to renew on-line or request an invoice.
- If the licence is renewed on-line it costs £20 excl VAT a year.
- If an invoice is required, the cost of the licence is £20 excl VAT but there is a £20 administration charge because of the manual processes involved.

What will the licence provide?

- Labels designed by OUP to label the picture resources and help with organisation.
- Copies of all the NELI assessment forms to print off on demand.
- Individual session plans and more picture material to implement the individual sessions.
- Newsletters for parents.
- Details of relevant research about NELI.
- NELI Data Collection Tool. A simple tool for TAs to record examples of children's narratives and add other simple data to evaluate the change individual children achieve and see how this compares within the school and with national data.
- Support from Elklan via a contact us form.
